Welcome to the Oxford Journals usage statistics service

Please select a report from the list on the left.

This service includes data from the time period beginning January 2009.

Archive data (2008 and earlier) can be found here.

[Institutional reports \(pre-2009\)](#)

[Consortia reports \(pre-2009\)](#)

[Society reports \(pre-2009\)](#)

Note for users of COUNTER JR1 and JR1a reports:

By default the service will create a report for the year-to-date, as required by the code of practice. It is possible for you to customize these reports to provide detail from other time periods, and we believe that you may find this useful. However, please note that the format of such a customized report would differ from that specified by the COUNTER code of practice.

Release note:

We are aware of an issue that occasionally affects users navigating back to a usage statistics session. The issue sometimes appears if you start using the usage statistics service, navigating away to other web pages, and then return. If you are affected by this issue, the usage statistics page to which you return may be missing the reports menu or date selection controls. You can correct this simply by refreshing the page (press the F5 key on your keyboard or use the refresh button on your browser). We apologize for any inconvenience this causes. We are working to resolve the issue.

要点回顾

- 牛津期刊现刊库的全文内容提供**PDF**和**HTML**两种格式阅览。多数刊物电子版文章会早于印本在线提供，这种出版方式称之为**Advance Access**。
- 牛津期刊较早开始了开放获取的实践，推出了开放获取项目**Oxford Open**。牛津开放项目分为两种类别，即完全**OA**和选择性**OA**。至2010年，参加完全**OA**的期刊有六种，更多的期刊属于选择性**OA**，即作者自行选择是否通过开放获取的方式出版文章。
- 牛津期刊部分医学类刊物提供在线医学继续教育，在线测试来评估读者对某些研究文献的理解程度。
- 牛津期刊账户功能分为个人账户和机构管理员账户两类。
个人账户内可以将检索式和文章保存到“个人存档”中，或引文管理器（**Citation Manager**）中供日后查阅。
个人或机构管理员都可以订制多种多样的提醒服务，通过邮箱接收期刊最新目次、文章再次被引用记录、文章勘误声明、目标作者未来在牛津期刊上发表文章、指定关键字在标题中出现的文章等提醒。
