Introduction

Shostal Associates

University, institution of high liberal arts and sciences and authority to confer degrees in a college in that it is usually large and professional degrees in universities did not arise in the West until the 11th century. It existed in some parts of Asia.

Early universities

The modern Western university evolved from the medieval schools known as *studia generalia*; they were generally recognized places of study open to students from all parts of Europe. The earliest *studia* arose out of efforts to educate clerks and monks beyond the level of the cathedral and monastic schools. The inclusion of scholars from foreign countries constituted the primary difference between the *studia* and the schools from which they grew.

The earliest Western institution that can be called a university was a famous medical school that arose at Salerno, Italy, in the 9th century and drew students from all over Europe. It remained merely a medical school, however. The first true university in the West was founded at Bologna late in the 11th century. It became a widely respected school of canon and civil law. The first university to arise in northern Europe was the University of Paris, founded between 1150 and 1170. It became noted for its teaching of theology, and it served as a model for other universities in northern Europe such as the University of Oxford in England, which was well established by the end of the 12th century. The Universities of Paris and Oxford were composed of colleges, which were actually endowed residence halls for scholars.

Considering Fisher v. University of Texas--Austin. [PDF Version] ☆

By Ford, Donna Y., Whiting, Gilman W.; Gifted Child Today; Apr2016

The article argues that there is much overlap in the affirmative action debates in higher education and gifted education and explores the ways by which access to gifted education can increase for underrepresented racial student groups in the U.S. like African American and Hispanic American students. Topics covered include the Supreme Court hearing on the Fisher v. University of Texas-Austin affirmative action case.

The Birth of Palestine Solidarity Activism at George Mason University. ☆

By McMahon, Janet, Radi, Tareq; Washington Report on Middle East Affairs; May2016

The article presents the author's views on the shift in discourse on Palestine and the emergence of student groups at George Mason University (GMU) who are committed to radical politics. The author tells about GMU's Students Against Israeli Apartheid which was first formed as an ad hoc committee during Israel's Operation Pillar of Cloud. The author tells about an educational program through which GMU students became empowered to challenge their peers who supported Zionism or claimed neutrality.

Cross-cultural and Moroccan Validation of the University of Washington Quality of Life Questionnaire for Patients With Head and Neck Cancer. [PDF Version] ☆

By Adnane, Choai, Oubahmane, Tarek, Adouly, Taoufik, Elhani, Loubna, Rouadi, Sami, Abada, Reda Lah, Roubal, Mohamed, Mahtar, Mohamed; Annals of Otolaryngology, Rhinology & Laryngology; Feb2016

Objectives: To translate the original English version of the University of Washington Quality of Life (UW-QOL) questionnaire into Moroccan Arabic version and investigate its psychometric validity and reliability for Moroccan-speaking patients with head and neck cancer. Methods: The UW-QOL was conducted in 104 patients treated for head and neck cancer in the department of head and neck surgery, Ibn Rochd university hospital, Casablanca. A control group of 57 healthy volunteers was also evaluated. The questionnaire was translated into Moroccan language. Results: Cronbach's alpha coefficient was 0.829, suggesting good internal consistency, and test-retest reliability was excellent (intraclass correlation coefficient [ICC] = 0.987). A good correlation was observed between UW-QOL composite scores and European Organization for Research and Treatment of Cancer Quality of Life Core Questionnaire (EORTC QLQ-C30) global health
